## MASS INTELLIGENT DATA ARCHITECTURE SOLUTION

Providing law enforcement organisations with intelligent and cost-effective data solutions is simply what we do. Leveraging the expertise of our business and data analysts, we work alongside your teams to provide a tailored solution that harnesses the power of technology you already have in a way that enables your operational personnel to work smarter and quicker.

We'll take you through a journey of data exploration and discovery that will enable you get the best out of your data streams, enabling:

-  Better insights generation
-  Faster investigation times
-  Reduce time to charging decisions
-  Increased likelihood of early 'guilty' pleas

### Innovative Data Solutions

From a full audit, analysis and recommendations to implementation and upskilling, we can provide you with a full range data service that meets your requirements and exceeds your expectations.

For us the partnership experience is key, so you will always have access to all aspects of the development process, we will work alongside your teams all the way through and provide on-site staff support if required.

## WHY MASS

We offer a **cost-effective solution** that can help your force to fully exploit technology you already have in order to transform the way you operate – enabling teams to work smarter and quicker.

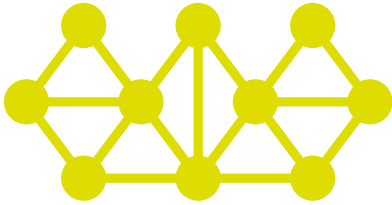

We take a **partnership approach**. We take time to understand your current situation and offer a tailored, cost effective solution.

We have been **trusted** by **UK Ministry of Defence** and other security organisations across the globe for over **40 years**. Our heritage in defence means our expertise and know-how working with security agencies is unmatched.

You'll have full **data sovereignty** because we show you how to use your existing technology to transform how you store, process, analyse and share your data.

## PROFILE

MASS is an independent, global technology company, trusted by highly-secure organisations to provide advanced, digital services that manage data and keep information safe. With our heritage in defence, we now offer robust solutions to sectors where security expertise is essential. We work in partnership with customers, using skilled, technical experts. We think innovatively to provide tailored, agile and resilient solutions that secure advantage, so you're ready for digital transformation.

## TRUSTED TO DELIVER

MASS is trusted by the UK and nations around the world to deliver digital tools, services and training.

## TAILORED SOLUTIONS

We take a partnership approach and our solutions are always tailored to your needs.

## HIGHLY SKILLED EXPERTS

Our people are experts at what they do. Highly technical, endlessly curious and always approachable.

## Microsoft 365 Experts

We are Microsoft 365 experts with decades of experience working with secure organisations including the UK MoD and law enforcement organisations.

We'll help you realise the full benefits of Microsoft 365 and how exploiting the technology available, to you now can save significant amounts of time and money while achieving better outcomes. It's easy when you know how.

## MASS DATA OFFERING

### Data Architecture

Whether it's on public, private, hybrid, or multi-cloud; or even assessing your existing on-premises architecture, we can help you find the right solution that maximises ROI and removes the burden of transforming to the cloud.

### Data Analysis

Whether your organisation is looking to improve operational or financial efficiency, our data services solutions can help unlock the power of your data. Using data visualisation tools, we bring data to life, allowing trends and key data points to be easily identified and incorporated into your decision making.

### Digital Transformation on a budget

Our success working with large complex organisations such as the NHS and the UK Ministry of Defence means we have the expertise to help you navigate your journey to digital transformation.

### Data Management

We work with you to structure your data sets to be easily accessible, trustworthy and of excellent quality. Our data governance process has been carefully structured in a way that enables our customers achieve the best results.
