MASS is an independent, global technology company, trusted by highly-secure organisations to provide advanced, digital services that manage data and keep information safe.

With our heritage in defence, we offer robust solutions to sectors where security expertise is essential.

We work in partnership with customers, using skilled, technical experts. We think innovatively to provide tailored, agile and resilient solutions that secure advantage, so you're ready for digital transformation.

DIGITAL SERVICES

With decades of experience in highly secure environments, we design, build and implement digital services and training that meets the most complex of needs, no matter the industry or sector. Our digital services are centred on four main areas:

- **Cyber security** - keep information and reputations safe with our holistic, security-first cyber services. We're an accreditation body for Cyber Essentials and Cyber Essentials Plus and a member of the Cyber Scheme.
- **Data services** - enhance your operational performance with our expert data insight and business intelligence services.
- **ICT managed services** - we design, build and manage high-performing, smart ICT services that keep critical data secure. Need it to be classified? We're experts at building secure systems.
- **Software development** - our innovative teams develop highly secure, user-centred software that meets our customers' needs and exceeds their expectations.

Enabling your data to inform faster, work harder, stay safer. Giving you the edge

INVESTING IN THE NEXT GENERATION

Helping young people build careers in STEM is something we're incredibly proud of as it highlights the culture and ethos upon which MASS is built. Our longstanding partnerships with local schools and technical colleges enable us to invest in young people, for the benefit of our industry and society as a whole.

TRUSTED TO DELIVER

MASS is trusted by the UK and nations around the world to deliver tools, services and training.

TAILORED SOLUTIONS

We take a partnership approach and our solutions are always tailored to your needs.

HIGHLY SKILLED EXPERTS

Our people are experts at what they do. Highly technical, endlessly curious and always approachable.

SERVICES FOR THE DEFENCE INDUSTRY

Modelling and simulation

We provide modelling, simulation and targeting analysis that keep nations safe. Our deep domain knowledge and skilled people means we're trusted by highly secure organisations.

Electronic and CEMA operational support

Our Electronic Warfare and CEMA software, services and training enhance operational effectiveness across all domains. Our expertise ranges across the full spectrum of signal collection, analysis and planning, data management, mission data production, countermeasures development and threat vulnerability assessments. It includes:

- **THURBON** – integrated multi-domain data management
- **CounterWorX** – advanced countermeasures development
- **NEWTS** – train as you fight simulation tool
- **BATTLEYE** – mission support tool for communications planning
- **EW training** – from entry level to advanced, individual and collective training

Training and exercise delivery

We support large scale decision-making exercises. From writing scenarios to building onsite classified networks, we manage every part of the exercise to ensure it achieves its goals. Our lessons support team ensure lessons are captured so each exercise can be improved upon and our team of experts and associates create an exercise that's as true to life as possible.

INDUSTRIES

Defence – For over 40 years we have delivered intelligent and secure digital services into the defence industry.

Public Sector – We are trusted by organisations within the public sector to provide advanced, digital services that manage data and keep information safe.

Private Sector – With our heritage in defence, we offer robust solutions to businesses within the private sector where security expertise is essential.
